CARREER

2009 – present

Wijtvliet Research

Wijtvliet Research was born on the October 1, 2009. Part of this is Wijtvliet **Financial Management**. The latter is also a partner at De Weygerbergen performance- and investment management. De Weygerbergen analyses investment portfolios and tries to find weaknesses and hidden costs for third parties. De Weygerbergen supports its clients and assists them in communicating with a bank or asset manager.

1998 - 2009

Senior equity analyst at F. van Lanschot Bankiers

In 1998 Van Lanschot Bankiers founded a full-fledged team of analysts. That team's mission was to provide the sales department with arguments and research results based on company and sector reports, thus generating trade and acquiring new clients.

Moreover, the research results were also used to attract clients from the private sector. This proved very successful. During this period, the number of clients doubled.

After 2000, I was engaged in observing and describing social and economic trends. In doing so, Van Lanschot wanted to show involvement and reliability. Also, this research could lead to new investment opportunities. The results of this research were, among other things, a very successful seminar on the bird flu and a conference about entrepreneurship and innovation. Furthermore, the bank was able to offer its clients new investment opportunities, for instance in water, sustainability and agri business.

OTHER ACTIVITIES:

- Giving presentation about companies, sectors and trends for clients and prospects of all branches
- Radio (BNR) and TV (RTL Z) interviews about the stock market
- Annual presentations about the budget proposals of the Dutch government
- Writing articles for newspapers and magazines like Brabants Dagblad, Beleggersbelangen and Beursindex.
- Taking care of weblogs on www.deondernemer.nl, on www.dekritischebelegger.nl and pluspost.nl
- Publishing a weekly Newsletter on <http://wijtvliet.blogspot.com>

PREVIOUS CARREER STEPS

1996 - 1998

Senior Financial Analyst at Wesselius, KBW-Wesselius and Friesland Bank Securities, Amsterdam, The Netherlands

As such I was spokesman for the Dutch and Belgian financial press, I drafted weekly newsletters for clients, wrote daily newsflashes about funds and sectors, studied companies and sectors and visited companies and analyst meetings.

1993 - 1996

Editor and publisher at the Centraal Bureau voor de Statistiek (Statistics Netherlands), Voorburg, The Netherlands

I wrote articles about statistical research, published in various magazines for both internal and external parties. Furthermore, I translated statistical data

into day to day language. Moreover, I was ghostwriter and I edited books and articles. In this period, a culture change took place. People started to realize that research results should actually be used. Otherwise, research would be pointless. The result was a more attractive and understandable presentation of statistics.

1985 - 1993

Researcher, Editor and Publisher at the Nederlands Instituut voor het Bank- and Effectenbedrijf (knowledge institute and publisher for the Dutch banking, insurance and investment industry), Amsterdam, The Netherlands

As such, I organized bankhistorical research, I wrote my PhD-thesis and I published articles in the Banking and Investment Monthly. Furthermore, I published and contributed to the Nibe Banking History, Banking Legal and Banking and Corporation series. When I left, the publishing company was no longer incurring losses and had reached break even. Moreover, I had completed my main task: I had obtained a PhD.

1983 - 1984

History teacher at the St. Oelbert Gymnasium Oosterhout and Stedelijk Lyceum Rotterdam

I taught history at two grammar schools. I have a first degree teaching qualifications.
